FOR TEACHING THE SUSTAINABLE DEVELOPMENT GOALS

FROM HOME

GOAL 2: ZERO HUNGER
BY: MARGREET DE HEER

SOME PEOPLE HAVE **SO MUCH FOOD** THEY THROW PART OF IT AWAY, WHILE OTHERS HAVE **TOO LITTLE**, OR TOO MUCH OF ONLY ONE SORT OF FOOD...

EATING ONLY ONE SORT OF FOOD CAUSES ALL KINDS OF WEAKNESSES

HERE'S WHAT WE CAN DO ABOUT IT!

END MALNUTRITION
IMPROVE EDUCATION AND SOCIAL PROGRAMS FOR MOTHERS, CHILDREN AND THE ELDERLY

PREVENT/MANAGE NATURAL DISASTERS
SUCH AS FLOODING!

SUPPORT SMALL FARMERS
ESPECIALLY WOMEN AND INDIGENOUS PEOPLE

PROTECT VARIETY OF CROPS AND FARM ANIMALS

This goal is not just about making sure everyone has enough food to eat; it's also about making sure that food is safe and nutritious. Because the food we eat has to come from somewhere, this goal also directs attention to sustainable food production, resilient agriculture and local and global cooperation when it comes to investing in agricultural productivity.

Find this cartoon and other lesson resources from the World's Largest Lesson [HERE](#).

Learn the Facts:

Access the following facts sheet, and share with your children for information about Goal 2: Zero Hunger [HERE](#)

GOAL 2: ZERO HUNGER

ONLINE RESOURCES

FOR TEACHING THE
SUSTAINABLE DEVELOPMENT GOALS

FROM HOME

For your child in elementary:

Activity 1: [Caterpillars & Cornstalks](#) is a fun take on Chutes and Ladders made by the Canadian Foodgrains Bank. This activity helps children gain a basic understanding of some of the factors that help and hinder the ability of small-scale farmers to grow food. Take the afternoon to play with your child, practicing critical thinking and reading comprehension along the way!

For your child in middle years:

Activity 1:

[Food from the Field](#) by Canadian Foodgrains Bank will help your child learn about staple food from all around the world, particularly those who live with limited access to foods. Many of these foods are not commonly used in North America, but see if you can find some (hint: lentils) in your pantry, and make some of the recipes.

Activity 2:

In [this video](#), a very animated food security expert Dr. Evan Fraser guides you through a crash course in climate change and food security. Explore the rest of the series and have your child summarize the videos either by drawing or text.

Tip: Watch his other video: [Introducing Solutions to the Global Food Crisis](#) with your high school aged children!

For your child in high school:

[This activity](#) from the World's Largest Lesson guides an inquiry in taking action against hunger, supported with written and video resources. Your child will employ unique assets and skills to create campaigns that raise awareness to the issue of hunger, both global and localized.
